Approaches to Regulating Technology—From Privacy to A.I.

MARCH 19, 2019

11:30 AM

There is new energy and momentum to legislate on technology issues—particularly when it comes to privacy, competition, and artificial intelligence. Many states and even some cities have enacted or are considering net-neutrality and privacy regulations, while for its part, Congress is considering a range of possible actions on technology. But what problems should policymakers address, and how should they address them?

Join AAF as it convenes two panels, the first on privacy and the second on the important threads between competition policy and AI, to discuss these important issues.

Panel #1: What's on the Table for Federal Privacy Legislation?

Neil Chilson, *Senior Research Fellow for Technology and Innovation, Charles Koch Institute*

Ryan Hagemann, *Senior Fellow, Niskanen Center*

Jennifer Huddleston, *Research Fellow, Mercatus Center at George Mason University*

Rob Pegoraro, *Contributing Editor, Yahoo Finance (moderator)*

Panel #2: Competition Policy and the A.I. Agenda

Ashley Baker, *Director of Public Policy, Committee for Justice*

Will Rinehart, *Director of Technology and Innovation Policy, American Action Forum*

Caleb Watney, *Fellow, R Street Institute*

Victoria Graham, *Antitrust and M&A Reporter, Bloomberg Law (moderator)*

Tuesday, March 19 at 11:30 am

Dirksen Senate Office Building, Room 562

Lunch will be provided.
